

IOANNIS KARAMPATZAKIS

Summary of Qualifications

Driven and detail-oriented Test Automation Engineer with over 6 years of progressive experience in designing, executing, and leading comprehensive QA strategies across diverse industries. Proven expertise in developing scalable automation frameworks. Skilled in leading cross-functional teams to optimize test cycles, improve release quality, and mentor junior testers to promote a culture of continuous improvement and quality. Known for implementing automation solutions that seamlessly integrate with CI/CD pipelines, accelerating release cycles and enhancing overall product quality. A strong advocate for **QA best practices**, with a reputation for influencing development teams to prioritize quality and streamline processes.
